

Broadband Specific Terms and Conditions

Rev 1.0 – 01/01/07

These Specific Terms and Conditions are to be read in conjunction with our [General Terms and Conditions of Supply](#). All definitions contained within these Specific Terms and Conditions have the same meaning as those set out in the General Terms and Conditions of Supply.

1 THE SERVICES

1.1 The Broadband Service to which these Specific Terms and Conditions relate ("Broadband Services") provide you with high-speed access to the Internet (and include a range of Internet services and applications as described at <http://www.isl.com>). The Broadband Services will be provided to you at the premises specified in the Customer Application. Quoted speeds for each product specified by us refer to the maximum available download bandwidth. Upload bandwidth for the Broadband Service (excluding SDSL products) may vary up to a maximum of 832Kbps. For SDSL products, the maximum upload bandwidth will vary depending on the Service ordered.

2 COMMENCEMENT OF SERVICES

2.1 We need to do the following to be certain that we can provide you with the Broadband Services and before accepting your Customer Application:

- (a) successfully complete a line test and survey; and
- (b) successfully activate the Broadband Services.

If it is not possible to provide the Broadband Services because one of the above can not be completed successfully, we will notify you as soon as possible.

2.2 To enable us to provide the Broadband Services, certain equipment may need to be installed at your premises. Before accepting your Customer Application, we may give you some advice on any necessary preparation. You will need to provide a suitable location for any equipment which is purchased from us, or which you supply yourself.

2.3 When the Broadband Services are being activated at your premises, you may lose your telephone service for up to two hours. This is because your existing connection needs to be adjusted to allow you to access the Broadband Services. We will endeavour to make any loss of telephone service as brief as possible.

2.4 We will use all reasonable efforts to activate the Broadband Services by the date notified to you following acceptance of your Customer Application, however it should be noted that all dates are estimates and we cannot guarantee that they will be met.
