

Providing Complete Pupil Protection

Securus software is the most advanced and unique filtering, monitoring and reporting software available today. **Securus** provides monitoring and detection, recording and reporting of any data activities in violation of a schools' Acceptable Use Policy, whether generated internally or externally, on-line or off-line. Captures of all AUP violations are recorded as screen captures, along with the time, workstation name, user identity, application and violating word or phrase. The software provides complete Risk Management capabilities of all electronic communications and transactions on networked PC's running under the Windows Operating systems.

Implementing **Securus** brings absolute control and management of your network and critical data to the administrator.

Only by knowing what breaches of your AUP are taking place can your school properly manage and maintain the integrity of its network. At the same time the freedom element of the Internet is maintained, and the productivity advantages to be gained from the proper use of the Internet remain unimpaired.

Freedom to work unhindered, together with responsibility, are key for the successful use of PC's In the classroom.

FEATURES

- ◆ **Monitors, Reports and Blocks misuse of:**
 - ✓ *Internet Access*
 - ✓ *E-mail*
 - ✓ *File Transfers*
 - ✓ *Chat Rooms*
 - ✓ *All off-line Activities*
- ◆ **Displays School's Acceptable Use Policy**

- ◆ **Simple & quick installation and roll out**
- ◆ **Improves Network Management**

The screenshot shows the 'Securus Console' interface. At the top, it says 'SECURUS SERVER' and 'Securus Console'. On the right, it displays 'GUI Version: 1.30.00', 'Server Version: 1.43.00', and 'Users/Load: 3 / 0%'. The main menu is divided into several sections: 'Initial Setup', 'Administration' (with links for Client Install/Uninstall, Group List, Library, Profile List, Station List, and User List), 'Reports' (with links for Web Access Log, Web User Logging, Web Users, Top Web Sites, Top Web Users, and Top Web Periods), and 'Quick Add' (with links for Group, Profile, Time Period, User, and Word or Phrase). A 'Help ?' link is visible at the bottom right. On the left side of the screenshot, there is a graphic with the text 'The Smart Solution' and an image of a computer monitor.
